

HUNS BUILDING ANOTHER HINDENBURG LINE

RUSSIA DECIDES TO RENEW WAR

Northern Government Intends to Raise an Army to Fight Germany.

REPUBLIC IS FORMED

Political Program of New Regime Declares for Expulsion of General Invaders With Allied Assistance.

Stockholm, Aug. 17.—The Finnish News Bureau at Helsinki says it has received a report from Petrograd that measures have been taken for the speedy transference of the state bank and other departments from Moscow. Private freight and passenger traffic on the railways has been suspended.

London, Aug. 17.—The "Republic of Northern Russia" has been formed with M. Tchaikowsky as president and minister of foreign affairs. The other members of the cabinet include Socialists of the various political parties.

The political program of the new government, which has just been issued, contains the following clauses: First—the recreation of Russian democratic power.

Second—the re-establishment of local government on a basis of universal suffrage.

Third—the recreation of the Russian national army and a renewal of the war on the eastern front.

Fourth—the expulsion of the German invaders and other enemies of Russia, to be carried out with the aid of and in co-operation with the Allies.

U. S. Force Lands at Solobolsk. Amsterdam, Aug. 17.—Four transports disembarked an American expedition at Solobolsk, near Archangel, Northern Russia, Monday night, according to a dispatch to the Dusseldorf Nachrichten.

"The American contingent was transferred directly to barges in the mouth of the river without touching at Archangel," the dispatch says.

"Admiral Kemp (British) issued a proclamation to the Russians saying that the Moscow rulers had betrayed Russia to the Kaiser, who now was sending troops to destroy the liberty gained at the expenditure of so much blood."

Czechs Reach Harbin.

Harbin, Aug. 17.—One thousand Czechs on their way to join General Semenov arrived here and were given an enthusiastic reception in which the Allied consuls and members of the American railway commission took part. After speeches and the singing of their national hymn the Czechs marched through the streets followed by cheering crowds. They received many gifts of food.

On the journey from Vladivostok they were everywhere hailed as the deliverers of the country.

DIVER FIRES OIL STEAMER

Ship is Attacked About 25 Miles Off Cape Hatteras.

Beaufort, N. C., Aug. 17.—A large oil tank steamer is afire about 25 miles off Cape Hatteras, according to reports brought here. A submarine is lying close by. The members of the crew have been taken off by life guards. It is presumed the submarine is a German and the tanker was set on fire by shells.

Washington, Aug. 17.—At the navy department it was said: "There is nothing to be given out," regarding the attack on a large oil tank steamer by a German submarine off Cape Hatteras.

FISHING FLEET PROTECTION

Naval Patrol Boats Will Accompany Craft in Future.

Washington, Aug. 17.—Steps to protect the fishing fleets off the coast of New England from German submarine raiders have been taken by the navy. Secretary Daniels announced that where the vessels operate in fleets, as is the general custom, naval patrol boats hereafter will accompany them to their banks and there maintain a guard.

Pneumonia Increases in Camp.

Washington, Aug. 17.—There was a slight increase in the number of cases of pneumonia among the troops in the United States during the seven-day period ending Aug. 9, the weekly health report issued shows.

JACOB GALLINGER
Senator From New Hampshire
Is Seriously Ill.

United States Senator Jacob H. Gallinger is reported in a serious condition at a hospital at Franklin, N. H. He is suffering from heart trouble and physicians expressed anxiety regarding his illness. He is 81 years of age and is serving his fifth term in the senate.

Surgeon General Wants 50,000 Women to Care for Soldiers

(By United Press)

Washington, Aug. 17.—Surgeon General Gorgas has appealed for 50,000 women to care for sick and wounded Americans.

Norway Protests Sinking of Steamer

(By United Press)

Christiania, Aug. 17.—Norway protested to Germany against the torpedoing of the Steamer Somersdahl off the U. S. coast.

High Officers Return Home for Rest

(By United Press)

Washington, Aug. 17.—On account of the severity of the fighting in which the Americans are engaged on the western front, numerous high officers are being returned to the United States for rest. Chief of Staff March told the correspondents. He warned that high casualties are to be expected. He said the fighting was mostly local within the last few days. The Germans are retreating and gradually consolidating the positions around the 1916 and 1917 lines. The German resistance is stronger and the allied attacks are isolated. The situation is generally unchanged. General March said for the fourth time in the present offensive the Germans had voluntarily surrendered positions. He said there were a million four hundred and fifty thousand Americans in Europe or enroute there. He said this represents all fronts including Russia and Italy. He denied that the Americans were singled out for harsh treatment when prisoners in Germany. He said their treatment was like the other allies.

Casualty List

(By United Press)

Washington, Aug. 17.—General Pershing reports 90 casualties.

FRENCH WITHIN MILE OF ROYE AND LASSIGNY-- BIG TOLL PRISONERS

British Drop in on Zebrugge With Sixty Tons of Bombs, Also Bombard Ostend Docks Aug. 8-15

1,450,000 Americans Now in Europe or Enroute There ---Men on Western, Russian and Italian Fronts ---Additional Men to Follow After Drafts.

British Aviators Bomb Ostend Dock

(By United Press)

London, Aug. 17.—Official—Concentrating on Zebrugge, British aviators working with the navy, dropped sixty tons of bombs on the enemy on Aug. 8 to the 15th, also bombed the Ostend docks, and downed a Zeppelin in the North Sea.

Supreme Command for Central Powers is Considered

(By United Press)

Zurich, Aug. 17.—The newspapers say the Teutons are considering the advisability of a supreme command for all the Central powers fronts in the conference at general headquarters.

Fighting on Vesle Liveliest in Days

(By United Press)

With Americans Afield, Aug. 17.—The fighting on the Vesle river is the liveliest in days. The Germans shortly after midnight opened with a bombardment that lasted four hours. The Americans replied shelling the areas from the Vesle to the Aisne.

Allies Make Progress in Picardy, Capture Many Prisoners

BY JOHN DeGRANDT
(United Press Staff Correspondent.)

Paris, Aug. 17.—The French are within a mile of Roye and Lassigny. Campeccar a mile west of Roye has been captured. Median Trench and Flessideroye less than a mile southwest of Lassigny has been occupied. Numerous prisoners and a great quantity of material has been taken. The enemy is reported preparing for the evacuation of the Roye, Lassigny-Noyon salient. The Germans are reported constructing another Hindenburg line.

French are at the Gates of Roye

BY JOHN DeGRANDT,
(Staff Correspondent, United Press)

Paris, Aug. 17.—The French are at the gates of Roye and have occupied the advanced defenses of the town. South of the Aisne they have occupied the junction of the Montdidier-St. Res and St. Denis road. St. Mard has been taken after a fierce fight. The Germans had formidable defenses there beyond Loges woods. The Germans have been pushed back behind the Roye-Lassigny road.

German-American Conference Postponed

(By United Press)

Paris, Aug. 17.—Newspapers say that the German-American conference regarding prisoners has been postponed.

French Progress Between Roye and Lassigny

(By United Press)

Paris, Aug. 17.—The French continue to progress between Roye and Lassigny and have reached the border of Loges Wood. There is great artillery west of Roye.

Haig Reports Progress in Flanders

(By United Press)

London, Aug. 17.—General Haig reported further progress on the western edge of the Flanders salient.

British Casualties

(By United Press)

London, Aug. 17.—The British casualties for the week totaled 7751.

FRANCO-BRITISH PUSHING ON ROYE

CZAR FERDINAND
Ruler of Bulgaria Whose Condition Is Serious.

The health of Czar Ferdinand of Bulgaria, who is at Nuremberg, suddenly has become worse, according to a dispatch from Munich. His condition now is considered serious. The German newspapers say Ferdinand frequently is seen in tears and appears greatly depressed. A German mental expert has been sent to Nuremberg from Berlin by order of Emperor William.

American Aviator Downs German Plane

BY FRANK J. TAYLOR
(United Press Staff Correspondent.)

With Americans Afield, Aug. 17.—Captain Biddle, of Philadelphia, forced down a German Rumpier plane at Nancy yesterday. The pilot was killed, the observer wounded and the plane captured intact. Two months ago Biddle was forced to land in No Man's land where he remained a day and escaped under fire. Then he got a personal letter from General Pershing.

Aviation Lieut. is Missing

St. Paul, Aug. 17.—Lieut. Hadden, of the aviation school, is missing while an investigation into his conduct while heading the school last January is being made. Hadden left the school without leave last Sunday. He has been traced to Minnetonka, where he rented a dressing room and bathing suit. The next morning his army uniform was found in the room and it is also learned that a man answering his description had bought a ticket for Wilmar, Minn.

PALESTINE JEWS ENLISTING

Joining British Army to Liberate Their Land From Turkey.

London, Aug. 17.—The enthusiasm that has marked the opening of recruiting offices in Jerusalem and Jaffa for the enlistment of the Jews of Palestine as reinforcements for Jewish battalions sent out from England, has been striking and significant, according to dispatches received by Reuters, Limited.

The dispatches say there was a spontaneous movement among the young Jewish colonists, mostly of Russian origin, who felt it to be their duty to share in the task of liberating their homes from the hated Turk.

CASUALTIES TO BE INDEXED

New Plan Will Provide Prompt and Detailed Information.

Washington, Aug. 17.—Under a plan which Secretary Baker and Surgeon General Gorgas began framing it is proposed to so completely index soldiers mentioned in casualty lists that relatives may get detailed information immediately upon inquiry at the War department. Such information now is brought from France by couriers leaving every seven days.

Crushing Blow Believed Impending and Fall of City Seems Inevitable.

ALLIES STILL ADVANCE

Enemy Is Hard Hit on Both Flanks and Center—American Aviators Down Two of Four Machines.

London, Aug. 17.—Evidently it is not in the plans of the Allies to leave the Germans secure in their possession of the line they now hold in the region between the Somme and the Oise. Although the front from the south of the Somme past Chaumes and past Roye to Noyon has been studied with fresh reinforcements and innumerable guns, the Germans again have been forced to give ground, and at points where seemingly their defence soon must crumble and the retreat eastward be resumed.

French and Canadian troops between Goyencourt and Laucourt, on a front of about three miles, fought their way west of Roye until they are virtually knocking at the door of the town, which is one of the keys to the positions of the German defense in Picardy.

London, Aug. 17.—On the Picardy battle front Allied pressure has been effectively renewed against the German line in the region of Roye.

The enemy is clinging desperately to Roye as a bulwark of the positions he took up after being driven back from the Amiens region. Both the French and the British are pushing closer, however, and making his prolonged tenancy of the place doubtful.

London reported the British lines advanced northwest of Roye in the neighborhood of Dammy and Parvillers, while Paris reports a forward movement on the part of the French west and southwest of Roye on a front of about two and one-half miles.

French Gain West of Oise.

Between the Oise and the Matz, the French continue their steady pressure and have gained additional high ground west of the Oise and northwest of Ribecourt. The Germans fought hard to hold Monolithe and Attiche farms, but were finally driven out by General Humbert's men. The farms are east of Thiescourt wood and are on the high ground dominating the river Divette, a small tributary of the Oise.

Appointment of General Von Boehn, who led the retirement from the Marne, to the command of the German group in Picardy, is confirmed officially from Berlin. It is believed in London that because of the scarcity of reserves the Germans will fight on the defensive on their present line. Fifteen reserve divisions already have been thrown in between the Ancre and the Oise and the enemy is said to have only 16 fresh divisions on the entire front from the North sea to Switzerland.

Unofficial estimates in London place the Allied captures since Aug. 8 at 24,000 men and 670 guns. It is declared the proportion of German to Allied losses has been greater in the recent fighting than at any time since 1914. The total Allied casualties may not be as large as the number of German prisoners captured.

Siberian City Captured by Czechs

(By United Press)

Washington, Aug. 17.—Irkutsk has been captured by the Czechs assisted by the Siberians the state department announced. The government is favorable to the allies, favoring a war with Germany being organized.

Submarine Sinks British Steamer

(By United Press)

Washington, Aug. 17.—The British steamer Mirlo was sunk off Cape Hatteras probably by a submarine, the navy department said. It is believed she carried a cargo of gasoline.

New French Gun Helps in Driving Germans Back

This new French 155m. gun, a trench mortar, has done wonderful work in the present counter-offensive against the Germans. It was carried with the infantry everywhere, and was very successful.

The Conveniences of a Checking Account

OVER ninety per cent of the transfers of funds are made by the convenient bank check.

The reasons for this are, first, it offers security for funds. It is extremely unsafe to carry large sums on the person, or keep them about the premises.

Then, a check being drawn in favor of a certain person or firm, if lost, is worthless to the finder. It may be mailed across the city at a great saving of time. It involves no question of making proper change; it is, in itself, an acknowledgment of the payment of an obligation, for upon being paid by bank, it is returned to the one who drew it, and becomes indisputable evidence of the payment.

Lastly, the practice of depositing one's funds in bank, and paying them out by check, establishes an acquaintance there, opening the way to many privileges which the stranger to the bank does not enjoy.

J. C. Barber, master of Twin Oaks country place, came from Chicago today. He is a civil war veteran and often refers to the time when he and other boys enlisted. There was no physical examination in the little western town. The boys simply signed their names and entered service. He carries a bullet as a souvenir of many engagements. Every time there is a big victory on the other side, Mr. Barber has a touch of the war fever, but age keeps him out of the ranks. At his farm he has guns of all descriptions. When it comes to duck shooting, no one can handle a gun better than he. He has bagged all kinds of big game and only regrets that he cannot add a few huns from the western front to his list of trophies.

RESENT BOMBING RAID

Germans Attack Americans and French on Vesle River.

Launch Combined Gas, Artillery and Airplane Assault as Retaliatory Step.

With the American Army on the Vesle front, Aug. 17.—A combined gas, artillery and air bombing attack was launched by the Germans on the French and Americans along the Vesle river. This was in retaliation for a bombing raid by American airmen on bridges over the Aisne river.

The German artillery continued shelling the crossroads south of the Vesle for hours on the assumption that the French and Americans were bringing up troops. German airplanes bombed the woods and villages south of the Vesle, apparently working in relays.

A group of 12 American aviators participated in the raid on the Aisne bridges. Other American fliers went up and took photographs for the purpose of ascertaining the effects of the bombs dropped. A great deal of traffic had been reported passing over the Aisne bridges and the French and Americans increased the fire of their heavy guns in an attempt to destroy as many bridges as possible.

As a result of the reports of observers, the French and Americans laid down a box barrage on machine gun nests along the hills northwest of Pismes. Observers and patrons reported that 12 machines had been destroyed and every German gunner killed.

Fined \$10,000 for Bootlegging. Portland, Ore., Aug. 17.—Federal Judge Bean fined Alexander Davidson president of the Blue Ribbon Beer company of San Francisco, \$10,000 following conviction on the charge of conspiring to violate the Reed Bootlegging amendment. This is by far the biggest fine ever assessed here for an offense of such a nature. It is in line with the court's recent threat to stop operation of California bootleggers in Oregon. Davidson said he would not appeal the case, but would pay the fine.

HOW THEY HELP TO WIN WAR

Country's Youngsters More Than "Doing Their Bit" for the Country We All Love.

More than 2,400,000 boys and girls were reached through club work last year, according to a compilation recently made by the United States department of agriculture, which supervises this work in co-operation with the State Agricultural colleges. Of this number approximately 350,000 made complete reports, which show that they produced and conserved products amounting to \$10,000,000. In the 33 Northern and Western states \$40,000 boys and girls were enrolled. Of this number 169,025 had reported products valued at \$3,700,000. In the South there were 115,745 boys enrolled in the regular work, who produced products valued at \$4,500,000, and 74,306 girls who produced and conserved products valued at \$1,500,000. In the emergency club work in the South the club leaders reached over 400,000 boys and approximately 1,000,000 girls who produced and conserved products valued at more than \$4,000,000.

ADD COLOR TO THE GARDEN

Goldfinches, Always Attracted by Sun-flowers, Make Beauty Spot Especially Attractive.

A very familiar bird in our gardens, especially when there are sunflowers growing there, is the beautiful little American goldfinch.

Their deep black wings and tail and little cap form a striking, though pleasing, contrast to their bright yellow bodies.

Because of their sweet, canary-like notes they are often called wild canaries.

They are very sociable little birds, being found usually in small flocks; they even build their nests in small communities.

When winter approaches the male changes his bright yellow coat for one of a soberer color closely resembling that of the female.

Numbers of them feed upon the sunflowers in my garden every year, and it is a pleasing sight to go in there and see their bright yellow bodies flashing in the sun.

They are hardy little fellows, spending the entire winter with us.—New York Sun.

Moving Pictures for the Home.

A comparatively inexpensive combination moving-picture camera and projector for amateur use is illustrated in Popular Mechanics Magazine. It bears about the same relation to the costly and heavy professional machines as a compact, light camera does to a cumbersome apparatus employed by portrait photographers. Exclusive of its tripod, the new movie camera weighs less than three and a half pounds. It uses standard film and is operated as easily as any simple "still" instrument. The capacity of its magazines, designed for daylight loading, is twenty feet, which, because eight instead of sixteen pictures are taken per second, records as much action as forty feet of film in a professional machine. Sharp, clear pictures capable of reasonable enlargement for "stills" are obtained. By changing the lens attaching a light frame with reels of 200-foot capacity, and mounting a small, cylindrical lamphouse, the camera is converted into a projector.

WOMAN'S REALM

FOR BRIDE-TO-BE

Parcel Shower Given in Honor of Miss A. Elvira Anderson on Friday Evening

Mrs. Arthur T. Anderson, Mrs. Albert O. Anderson and Miss Ina Anderson entertained some twenty young ladies at a parcel shower Friday evening in honor of Miss A. Elvira Anderson, a bride-to-be. The two little nephews of the honor guest, Donald Anderson and Milton Anderson, with her niece, Little Miss Dorothy Anderson as driver, entered the room drawing a decorated wagon containing the parcels and handed them to Miss Anderson as fast as she could open them. She received many beautiful and useful household articles. The evening was spent in games and music. The home was beautifully decorated with flowers in profusion. Refreshments were served.

Sustaining Moral Energy.

The moral energy of nations, like that of individuals, is only sustained by an ideal higher and stronger than they are, to which they cling firmly when they feel their courage growing weak.—Henri Bergson.

Recipe

Recipe for buttermilk or sour milk bread:
3 cups buttermilk or sour milk
3 teaspoons soda.
3 tablespoons syrup or light molasses

2 cups flour
1 cup barley flour
1 cup rye or graham flour
2 heaping teaspoons baking powder
1 egg
Salt.

Add a few raisins or dates if you wish. Let stand in pans for 20 minutes before baking, in a slow oven.

MRS. C. S. HAZEN.

Macaroni Beans.

The "macaroni beans" of north Manchuria, a peculiar product described in a recent commerce report, are consumed entirely by the Chinese farmers. The beans are of two kinds—a red and yellow variety that is very floury, and a small green bean that is unusually glutinous—and for use the two are mixed together, ground into flour and made into a paste, which is forced through small holes into long strips or noodles. These dry quickly and keep well in any climate. They are cooked in water, like macaroni or vermicelli, and this method of using gives the beans their trade name.

Bernhardt's Beautiful Granddaughter Poses as a Wounded Soldier of the Front

MLLE. LYSIANE BERNHARDT.

Coached by her wonderful grandmother, Mlle. Lysiane Bernhardt, who is now in the United States, posed for a photograph in the attitude of a wounded soldier of the western front. The young woman is as strongly for France as the Divine Sarah, who thinks of little but the war.

SHARP NOTE IS SENT TO BERLIN

Spain Threatens Reprisals for Sinking of Her Ships by Submarines

WILL SEIZE VESSELS

Madrid Government Says It Will Take Interned German Ships to Extent of Spanish Tonnage Destroyed.

London, Aug. 17.—A dispatch to the Times from Santander, Spain, says: Spain has notified Germany of her intention to compensate herself for future outrages against Spanish shipping by confiscating a corresponding amount of tonnage from German shipping that has found refuge in Spanish ports.

There are about ninety German steamers voluntarily interned in Spain. Premier Maura and Foreign Minister Dato left Madrid for summer resorts, having remained in the capital until they learned officially of the reception given by the German government to the Spanish note on the torpedoing of Spanish vessels.

"El Liberal" says the Spanish government already knows unofficially the impression made on the German government by the note. According to El Sol, the note will be published in full as soon as the Madrid cabinet hears it has reached Berlin.

AMERICANS ARE "THE GOODS"

Lord Northcliffe Compliments Yankees on Efficiency.

London, Aug. 17.—Lord Northcliffe entertained at luncheon a number of Canadian, Australian and American editors. Besides the editors there were present, Earl Reading, British ambassador to the United States; Premier Hughes of Australia; Premier Massey of New Zealand, high commissioners, and a large number of other prominent citizens of the dominions.

In toasting his guests, Lord Northcliffe said that the way the colonials had been coming over to help the old country was one of the most touching things in history. He spoke of the campaigns in Gallipoli and Vimy Ridge and also dwelt on what the Americans had done at Chateau Thierry. The Americans, he said, had proved to be "the goods." What the Germans had called a mob in uniform had proved to be an entirely new and most efficient kind of an army.

TO AID SICK AND WOUNDED

Army Will Require 50,000 Women by July 1 Next.

Washington, Aug. 17.—Fifty thousand women will be needed by July 1 next year to assist in the care of the sick and wounded of the American army, Surgeon General Gorgas stated in announcing that young wives with husbands fighting in France would be accepted as hospital assistants.

The vast majority of the 50,000 women must be trained nurses and available for service overseas.

FURLOUGHS FOR FARM WORK

Soldiers in Camp Can Obtain Leave in An Emergency.

Washington, Aug. 17.—The way has been opened for soldiers in camp to get away for emergency work on the farm. The War department announced that enlisted men may obtain furloughs to engage in agricultural work by making application to their commanding officers or having relatives or other interested persons apply through the local boards at which they registered.

PROVIDING BINS FOR WHEAT

Suitable Storage Houses May Be Necessary on Many Farms to Save Large Crops This Year.

(Prepared by the United States Department of Agriculture.)

Farmers in sections where the acreage of wheat is unusually large are urged by the department of agriculture to provide enough bins on the farm to take care of their wheat when thrashed. This is said to be necessary to save the wheat that will probably pile up in certain localities, because the large crop is likely to put a heavy strain on storage elevators and transportation systems. The wheat should be stored in bins on the farm, according to the bureau of markets, which has issued a circular containing plans and drawings for a portable bin that can be quickly built. Copies of this circular have been distributed to county agents throughout the large wheat-producing sections.

APPEARANCE OF NEW WEEDS

Much Loss and Trouble Could Be Avoided by Reporting Presence of Noxious Plants.

(Prepared by the United States Department of Agriculture.)

If the first appearance in this country of weeds, such as Russian thistle, field hawkweed, and Canada thistle, had been reported, much of the loss and trouble which they are causing might have been avoided. It is important to report the appearance of new weeds and to take precautions to prevent their dissemination.

U.S. FLYERS BOMB METZ

Railroad Yards Near City Are Badly Damaged.

Scores of Direct Hits Made on Tracks in Front of Longuyon Station.

With the American armies in France, Aug. 17.—The German railroad yards at Domary and Baroncourt, near Metz, have been bombed by American airmen. Explosions were observed in the central and southern portions of the yards which completely wiped out tracks and rolling stock.

Other bombing squadrons made scores of direct hits on tracks in front of the Longuyon station. During a reconnaissance flight, American airmen bombed German military objectives at Thiaucourt. A hostile machine was brought down.

27 Enemy Planes Downed.

London, Aug. 17.—Extensive bombing operations and heavy air fighting over the lines in France and Flanders were reported in the official communiqué issued by the British air ministry. The statement claimed destruction of 27 enemy planes and several others were forced down out of control. Nineteen British machines are missing.

The principal targets for bombing squadrons were Peronne, an ammunition dump, the docks at Bruges, the towns of Douai, Cambrai and Thionville. Ground targets were successfully attacked with machine gun fire.

FOE LOSSES 6,000,000 IN WAR

Million and Half Slain Since Hostilities Began.

Paris, Aug. 17.—One million five hundred and twenty thousand Germans have been killed during the entire war, the Echo de Paris declares. The enemy's total losses in killed, wounded and missing, it is estimated, amount to 6,000,000, of which a big percentage were wounded and have been sent back into the lines.

From March to June 120,000 Germans were killed, the paper said, while the number of killed in the past eight weeks has exceeded this figure.

Must Report Stocks of Wool.

Washington, Aug. 17.—Retail merchants were requested by the war industries board to report at once upon their stock of knitting yarn in Oxford, khaki, natural and gray colors in order that the American Red Cross may have opportunity to buy the stocks.

FLIES OVER GERMAN LINES

First American Built Air Squadron Goes into Action.

Washington, Aug. 17.—General Pershing advised the war department that early in August a complete squadron of 18 De Havilland airplanes, built in the United States and equipped with Liberty motors, successfully carried out the first reconnaissance flight of American built machines behind the German lines. They returned without loss.

DRAG SEA FOR SUBMARINE

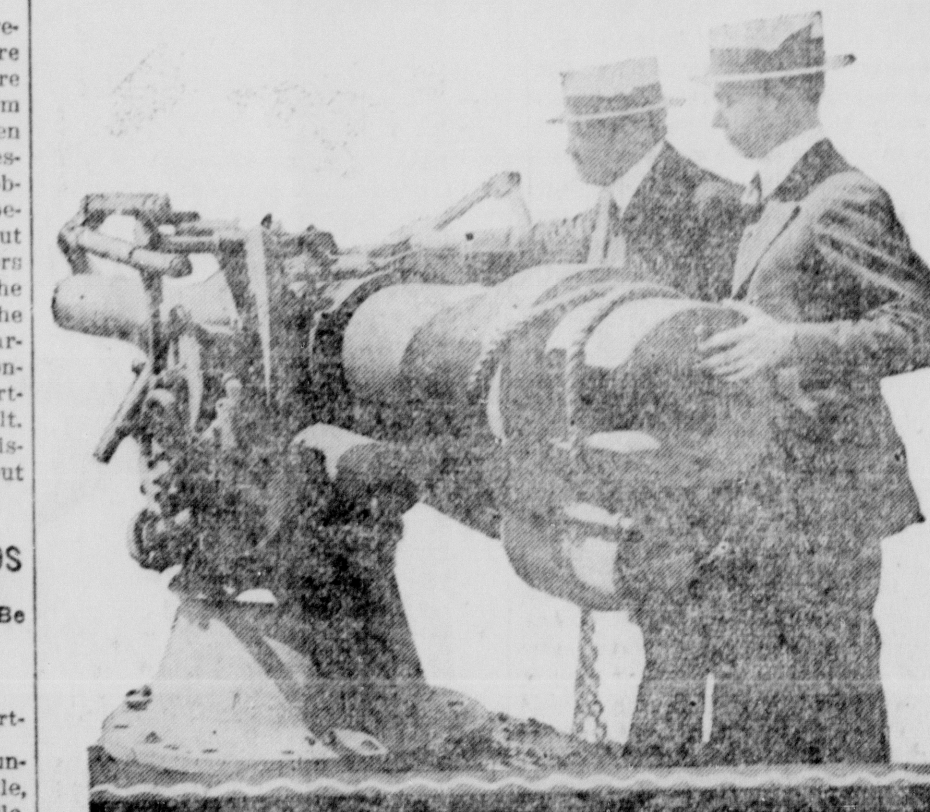

Seeking Proof for Destruction of the Undersea Craft.

Washington, Aug. 17.—Naval officials on the scene of the sinking of the Dorothy Barrett, believe they destroyed the U boat, although the department is without proof, Secretary Josephus Daniels said. The sea is being dragged in an attempt to find the submersible, believed to have been wrecked by depth bombs.

26 Suffragists Jailed.

Washington, August 27.—Twenty-six women who have been defying the police in Women's party demonstrations opposite the White House in protest against the Senate's delay on acting on the federal suffrage amendment, were given jail sentences in the police court when they refused to pay fines. Ten day sentences were imposed for unlawfully holding a meeting without permits and seventeen of the defendants were given five additional days for climbing on a statue of General Lafayette.

BIG GUNS AN EXHIBIT FEATURE

Big guns of all sizes have played a mighty important part in the Yankee drive against the Germans in the last two months. Many of the big guns now being used by

"WHO WILL WIN THIS BATTLE?"

Your kidneys are the filters of the body. If they become inactive and fail to eliminate the waste matter, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can accumulate in the system and be as deadly as snake venom.

Besides causing the minor ailments of rheumatism, sciatica, lumbago and backache, neglect of the kidneys is apt to develop into more serious diseases, such as diabetes or stone in the bladder.

Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric and you win the battle of life.

Anuric was first discovered by Dr. Pierce, and has benefited thousands of sufferers as well as appeared and eliminated the ravages of the more serious kidney diseases. Now procurable for 60 cents at any good drug store, or send Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10 cents for trial package.

STILLWATER, MINN.—"If I can do any good in the world for others, I wish to do it, and I feel that it is my duty to write about the wonderful results I received from the use of 'Anuric.' I was suffering from kidney and bladder troubles, scalding, backache and rheumatism, and feet and ankles swelled so that at times I could not walk without assistance. Had taken several different kinds of kidney remedies but all failed. I sent to Dr. Pierce for his new discovery, 'Anuric,' which I received by mail in tablet form. I soon got better and am convinced that this popular new medicine is good. I wish to recommend it to my neighbors and everybody suffering from such troubles." Mrs. M. J. SARGENT, No. 1321 North Broadway.

ASKS AUSTRIAN ASSISTANCE

Germany Calls on Her Ally For 10 to 15 Divisions.

London, Aug. 17.—According to a dispatch to the Daily Mail from The Hague, Germany has demanded that Austria send 10 to 15 divisions to the western front. Austria assented to this, the dispatch said, on condition that Germany would accept Austria's solution of the Polish question and make a strong peace move, including the evacuation and restoration of Belgium. Germany promised to concede to Austria's solution of the Polish question, including the naming of an Austrian archduke as king, the dispatch asserts.

AUSTRIAN TOWN IS BOMBED

British Airmen Damage Railway Station and Industrial Plants.

Washington, Aug. 17.—Successful aerial operations along the Piave and over Durazzo were reported in official cables to the Italian naval attaché here from the Italian naval headquarters.

The Durazzo raid was made by British planes and the railway station was bombed and several large plants were set on fire.

German Sent to Prison.

New York, Aug. 17.—Ferdinand Schurman, president of the Felix Scholler Paper company, a German owned corporation now under the control of the alien property custodian, pleaded guilty in federal court here to an indictment charging him with having falsely claimed American citizenship, so that his corporation might be permitted to import phonographic and carbon papers from Germany prior to the entrance of the United States into the war. He was given seven months in prison.

Army Camps to Be Enlarged.

Washington, Aug. 17.—Plans for enlargement of several of the big training camps were announced by the army general staff. Camp Hancock, Georgia, designated as a center for the training of machine gunners, will be enlarged to accommodate between 50,000 and 60,000 men. An officers' training school, housed in tents there now, will be given barracks and quarters and the total cost of new work will be about \$2,000,000. The capacity of Camp Grant, Illinois, will be increased from 42,000 to 60,000 men.

Our Toast---

"May every woman be what she thinks herself to be."

Most women think they are beautiful. Every woman has a right to think she is pretty. Every woman has a right to own beauty. It's all a matter of care of the toilet.

Beauty for All

There is beauty for all through careful skin treatment with the proper cream. There is no doubt about this.

TO MY SERVICE FLAG

(Dedicated to our Sammie's mothers)

O Service Flag, my Service Flag,
 Two stars thy folds do hold.
 They stand for boys,
 A mother's joys,
 God, turn them not to gold!

O stars, ye ensigns of the Truth,
 To my boys thou a secret hast told.
 Of the joys and the fears,
 Of the hopes and the fears,
 When a star shall be added—in gold.

Thou, O God, Mighty Maker,
 I pray Thee, be with us, to mold
 Out of hearts that are dear
 Out of souls lacking cheer
 Mold a Man, firm, immortal—not gold
 ALICE R. JOHNSON.

(Daughter of Mr. and Mrs. O. B. Johnson.)

DAYS OF WAR

Some individuals are so engrossed with their own affairs that they have come to the conclusion that the war revolves about them and that affairs must be so adjusted that their own convenience and interests keep a pre-war status.

The nation must win the war and all crafts and industries, all activities of the nation must so shape themselves as to secure that result. Before criticizing the government's orders try them out, and also consider what you would do if you were directing this war on a winning basis.

Mere criticizing or "belly-aching" never killed a Hun.

The order to save coal, sugar, white flour, fats, etc., can only be accomplished by doing the saving requested by the government. Oratorical kicking will not accomplish it.

The civilian kicker behind the lines furnishes a remarkable contrast to the soldier at the front who faces shot and shell that the civilian kicker may stay at home and "belly-ache."

THE LABORER WALK OUT

Laborers at the foundry asked for more wages and upon being refused a higher scale, walked out. Since then there has been no disorder, no picketing, no trouble.

Some have found other employment. There is no denying the fact that labor today is receiving the highest wage in the history of the United States.

It is hoped an adjustment can speedily be effected. As matters now stand, loss of the laborers ties up the molders so they cannot work.

Brainerd can ill afford to have a foundry idle in war times.

INDICATES NEW OFFENSIVE

Germans Allow Neutral Military Attaches at the Front.

Amsterdam, Aug. 17.—Neutral military attaches have gone to the Amiens-Montdidier front, according to a Berlin dispatch received here. This announcement supposedly indicates fresh operations in that region.

The day before the start of the German offensive in Picardy, March 21, all the neutral attaches and war correspondents were ceremoniously herded to the front.

W. W. HARTLEY'S RETROSPECTION

Gives His Memories of Old Crow Wing and Brainerd in the Early Days

CONFESSED TO A ROMANCE TOO

Mr. Hartley Gives an Inside Picture of the Discovery of Two Indian Murderers

It was a favorite custom among the young Indians and mixed bloods to "initiate" a new-comer by beating him up, after which they would fight for him as readily as any one of their own number. They set out one evening to give me mine but I declined to go against about a dozen at once and it never came off. The most notable failure of the gang took place one evening at a dance in a large vacant store building opposite Peake & Wakefield's store, when they bit off more than they could chew. This was staged for Jim Van Ransler, the big express agent, who weighed upwards of 300, and his friend, Burt Haney, 280 pounds, both muscular giants, over six feet without a pound of surplus flesh and hands like hams. I first noticed all the girls suddenly disappeared and knew something was coming. I remembered I had business across the street and went out the front door as the gang came boisterously in the rear. Some one shot out the lights and the war was on. I found Clem recording deeds in his office over the store and we smoked and listened to the tornado. Forty-seven mules all kicking at once would have appeared a Quaker meeting beside it. Jim and Burt backed against the wall where the stools were thickest, taking a stool in each hand. Next morning there were few stools left, but bandaged heads, arms in slings, etc., were plenty. It was risky business asking questions about their bruises for some time. A quarter of a century later I was engaged in the real estate business in Tacoma and mining in Oregon with Haney, who is now in business in Medford.

The most thrilling fight to a finish I ever saw was at Crow Wing, and I never wanted to see another, even a prize fight. Two lumberjack giants, Jim Rush and Jerry Bertrand, Irish and French, about equal in weight and build, about 300 pounds, with an old grudge they had tried a number of times to fight out but always parted or prevented, chanced to meet in Crow Wing, on separate river drives. After a few drinks they went at it and by common consent were allowed to fight it out under Marquis of Dogberry rules, without seconds, referee, attendants or interference and a good deal of the time at last without an audience. They smashed tables, chairs, everything and everybody that came in their way, rolling on the floor, straining, smashing, panting, watching for an opening, striking, biting, gouging, squirming, but never a word or sound above their heavy breathing and grunting, for hours at a time. They fought all day, all night and most of the next day, without stopping to eat or drink, until at last they mutually agreed to call it a draw. One had an ear bitten off, the other his nose and a finger. Both were covered with cuts, bruises, blood, mud, slime, saliva and everything but clothes. After it was over they were the best of friends, drank together and went together to have their wounds dressed, not seeming to notice any one but themselves, any more than if they had been in the wilderness alone.

Nor was my Crow Wing experience without its romance. Nearly all men of my acquaintance there had Indian wives: Fred Peake, all of the county commissioners, C. H. Beaulieu, father of Clem, Frank Campbell, John George Morrison, Albert Fairbanks, Bill Wade and many others too numerous to mention. Neither does this appear so strange as one comes to know the Indian in his native state—the noblest savage that lives. Magnificent in physique, intellectually a philosopher, in discourse an orator, on parade picturesque, in warfare brave, in perception, observation and resource unsurpassed by savage or civilized.

When I worked for Lynde & Wade I took my meals over the store and became well acquainted with Wade's wife, Misho-beek, a very estimable woman, an excellent cook and exceptionally tidy housekeeper. One morning when I went to breakfast a very pretty, blushing little Indian maiden of about sixteen, tastefully dressed in bright calicoes and ribbons, with a long, heavy braid of glossy black hair down her back, brought in my breakfast and took her seat to wait on me, which she did perfectly. Returning to the store Bill asked how I liked her. I told him she was a peach. He then told me she was a niece of his wife, who had sent for her for me. I then understood the breakfast scene and felt sorry for the pretty little thing, but told Bill very emphatically "Nothing doing." He tried to per-

suade me, saying when I got acquainted I would change my mind, but I told him that was impossible. I did not go to lunch that day and that evening I took supper at the Cathcart House, where I made my home till I left Crow Wing and did not see the "intended" again. It was not long after this that I accepted the position offered me by Peake & Wakefield. Lynde & Wade dissolved partnership and Wade joined Major Whitehead in his Black Hills expeditions and finally settled in the Hills, where he died. Lynde married a young lady from Michigan and took down his store and rebuilt in Brainerd, on Front street between 3rd and 4th, where he continued a general merchandise business till he died in 1873. The year following I married his wife's school mate near Greenville, Michigan.

My official duties brought me in contact with the legal fraternity and I counted among my friends many of the leading attorneys in the state, who often gave me advice and aid in the performance of my duties. As probate judge I was authorized to solemnize marriages and as clerk of the court to issue licenses and these ceremonies became very frequent, both at my offices and at the homes of the parties. E. S. Smith, an attorney at Little Falls, prepared a marriage ceremony for me that differed in what he claimed and always seemed to me an essential part from the usual marriage ceremony, in that it proclaimed them "husband and wife" instead of "man and wife." He said the husband was a man before the ceremony made him a husband and the woman a wife. It has always jarred on my nerves since, to hear the minister proclaim the couple has just married "man and wife." And the press makes the same error, almost invariably.

There are many claimants to the distinction of the first couple married in Brainerd, among them a couple now residing in Mountain View, and Mr. and Mrs. Shoaf, son-in-law and daughter of William Lytle, who was clerk of the court at the time of their marriage and I issued their license as Mr. Lytle's deputy, which I remember well. But the records of my office are all burned December 18, 1874, when the Tribune office, D. O. Preston's office as probate judge and my office as clerk of the court were destroyed, in the Allen building, on Front street.

One Sunday morning in January, 1872, Morris C. Russell appeared in front of the postoffice, at Hills store, among the crowd gathered to get their mail, and with note book and pencil in hand solicited subscriptions for a Brainerd paper that he proposed to start provided he received sufficient encouragement. A newspaper was the one thing, above all else that Brainerd most wanted just then and everybody subscribed and on February 10th, 1872, the Brainerd Tribune was born and taken into the bosom of every family in town. The office and plant were destroyed by fire, as stated above, but did not miss an issue. A new plant was installed in a board shanty on the corner of Front and Broadway and the Tribune was out on time the next week, as usual. On May 1st, 1875, I bought the paper and continued its publication until 1881, when I sold to George S. Canfield, from the Cincinnati Commercial Gazette, who later sold to A. J. Halsted, who still owns it. Canfield now resides in Spokane, Wash. I often find my bound volume of the paper valuable for reference and Geo. W. Holland often enjoyed referring to it when visiting us. During the political campaign of 1872 I published a daily paper, called the Greeley Wave, nominally and earnestly supporting the presidential ticket indicated by its name, but primarily in the interest of our local ticket.

"Burke and his Bear" were among the points of interest in Brainerd in these days, and I often liken the Kaiser to the bear. Burke kept a saloon on Fourth street, and a large black bear tied to a tree in front of his door, an open challenge to all the dogs in town, was a prime feature of the place. Burke made it his business to work up fights with the dogs to bring the crowds to his bar, and the bear made it his business to swipe all the dogs that came. His back to the tree, he never moved off his haunches and always won, swiping dogs in front and rear and in every direction, until one day, when Burke was not looking Pete Branigan cut off the bear's toe nails and then set his dogs on and licked the stuffin out of the bear. It was always interesting to watch the dogs. They always came in a crowd and divided, attacking the bear on all sides at once. And there was a difference in dogs, some would dig in and fight regardless of consequences, while others ran around out of reach of the bear and barked, until some one pushed them in and made them fight. The bear paid no attention to the barking dogs but swiped the fighters.

The parish directory of St. Paul's church at Brainerd, for 1917-18, relating some early history of Brainerd, makes the statement that in

1871, "in the principal store in the town there stood inside the door an open barrel of whiskey with a dipper in it, for anyone to help themselves." I lived in Brainerd continuously from September 1st, 1871 to 1889, and was there many times before I went there to live. I was in politics a good deal and always around with the boys and never passed anything up like that, but I never saw or heard of this before. The store of H. A. Hills & Co., corner of Front and 4th streets, was clearly the largest store in Brainerd, did the largest mercantile business, beside private banking, express office, postoffice, and sold liquors wholesale and retail, and I assume is the store referred to. I was in Hills' store several times almost every day, went there for my mail when the mails arrived, but never saw or heard of whiskey or any other liquor being free in that or any other store, and no other store, outside the saloons even sold liquor. The most probable solution is that some one played a joke on the preacher.

It always interests me to keep tab on the old timers of both Crow Wing and Brainerd and I often hear from some of them even yet. I had a letter quite recently from W. W. Scott, the one-armed telegraph operator at Crow Wing, who was station agent at West Duluth when he wrote. Rev. E. Sidney Williams, pastor of the Congregational church at Brainerd in the early days, is now a wealthy fruit grower near here. Warren H. Leland lived at Crow Wing a while, when I was there and went from Brainerd where he built and operated the big Leland Hotel (Corner 5th and Laurel Sts.) He lived in Tacoma in the early nineties, when I lived there and died after leaving there, in San Francisco. James Whitford, who lived at Motley the last I knew, also resided in Crow Wing.

Everybody, everywhere, knew about the hanging of the Indians at Brainerd, but some of the inside history never saw print and a good many of the uninformed were always doubtful about their guilt, hence I see no objection at this remote date, to telling some of the circumstances that I knew about. As was generally known, Miss McArthur, daughter of David McArthur, one of the county commissioners mentioned above, disappeared one morning on her way to visit friends in Crow Wing and never was seen again. Exhaustive search for months failed to discover the slightest clue, until a young Indian woman reported to the county attorney that she overheard the two young Indians who were afterward hanged, disputing, in a drunken row, as to which of them struck the blow that killed the girl. Each disclaimed it and insisted that the other did it. After considerable search they were apprehended and placed in the Brainerd jail, when various methods were tried to induce them to confess or inform on the other, even promising immunity to the one who told the correct story and aided in finding the remains, but they only persisted in sullen denials. There was no doubt of their guilt in the minds of those who heard the Indian girl's story, but it was quite as apparent that they could not be convicted or even held much longer in detinue, without further evidence. Finally a number of citizens, whose names if given would be ample guarantee of their integrity and high standing in the community, with an interpreter of equal high standing, who still lives and will verify this account, came together to discuss plans with the county attor-

ney, sheriff and clerk of the court, resulting in procuring a rig and a rope and driving to the jail after midnight, in the absence of the sheriff, and, finding the keys as pre-arranged, took the prisoners out, one at a time, a couple of miles southeast of town, where the rope was thrown over a limb and about his neck in a hangman's knot and he was told that he was to be hung then and there unless he confessed and took us to the remains. Refusing he was given time to pray and then strung up until unconscious, when he was let down and restored and given another chance. This was repeated until it became evident that nothing could move him, when the other was brought out and the process repeated. When restored to consciousness after the first hanging the second one broke down and told the story of the brutal murder and disposition of the body, which he said was covered with dead leaves and branches under a clump of thick bushes and agreed to go with us and show us the place. He said they were both drunk and excused killing her by saying she struck him and made him angry, besides, they feared if they let her go she would tell of their outrages. His account confirmed the story of the Indian girl so completely that it removed all possible doubt. We then drove as he directed, taking an old road leading from the highway to a place in the timber a couple of miles or so above Crow Wing, near the river bank, where he began searching for the spot, but as daylight appeared his courage seemed to be restored and he told us he had lied to escape being killed, that they did not see the girl or know anything about her disappearance and that the Indian girl had lied through jealousy. He was finally taken back to jail and the other prisoner was taken out and told that his partner had told the whole story, relating some of the details, but nothing we could say or do moved him from his sullen silence and gruff denials. The following Sunday a party of us drove to the place we had been led to and finally discovered the remains, just as he had told us, under a bunch of bushes, but there was very little left beside bones and buttons and in one spot about a foot square, under where the body had decomposed, was found a piece of plaid black and white cloth with one button still on it, that was readily recognized by Mrs. McArthur as a part of her daughter's underwear. The buttons found nearby were also readily recognized. The bones were gathered and taken to town where physicians said they were plainly bones of a young girl and they even found the deformed bone of her crippled limb. With this accumulation of evidence the county attorney began preparing to bring them to trial, when, unheralded and as if by magic, a multitude of determined men suddenly filled the streets, marching silently to the jail. The rest is history.

When asked to write these recollections of Old Crow Wing I tried to leave myself out, but found the old town had come to mean a great deal to me, promoted as I was there, in a political way, while only a boy, and the part I took in its closing history and final transition to its thriving successor, could not well be omitted, hence the reader is asked to pass lightly over whatever may appear personal to the writer.

W. W. HARTLEY.

Star Means This Boat Has Sunk a Submarine

The star on the funnel of the torpedo destroyer means she has sunk a Hun submarine. The members of the crew from captain to cook are very proud of the star, and they work hard to acquire it.

CONFER ON THE LABOR PROBLEM

Laborers at Foundry are Out and Demand Same Pay as Laborers Under Railway Administration

MOLDERS ARE UNABLE TO WORK

Molders, Helpers, Citizens Hold Meetings on Friday Evening to Solve Question

Molders, helpers and a committee of citizens conferred at a meeting in the Citizens State bank building Friday evening relative to adjusting the wage difficulty at the Parker & Topping Co. foundry.

Lawrence O'Toole, president of the molders union, presided. The matter of coming to some agreement was talked over. As things now stand, while the helpers are out, the molders cannot work.

It was decided that the molders and helpers case be placed in the hands of the railway administration board for adjustment.

There were some 25 helpers present and they previously met in a small hall of the building and decided not to go back to work under present conditions.

A citizens meeting held previously sent a committee to the labor meeting in an effort to solve the difficulty. The citizens committee included A. D. Polk, W. H. Cleary and J. P. Anderson.

The laborers out want 45 cents an hour, same pay as the government schedule provides in the machine shop, boiler shop and car shop of the railway shops.

In addition to the labor problems at the foundry is that of the store room laborers who also want more pay. A dozen at the old freight depot were out a day and then returned to work. Others were out at the shops. Some have returned to work.

TO THE PUBLIC

For the benefit of the Red Cross and the Junior Red Cross, organized labor of Brainerd is having placed at all shops and mills, also at the parks and school houses, boxes which are provided for receiving the tin foil from candy, gum, cigars and cigarettes, and children and grown ups will do a kindness in taking the time to drop the tin foil in said boxes. This is gathered up by the Red Cross and sold, and the proceeds will go to the Red Cross and Junior Red Cross subscription for the war. Save the waste and win the war. Boxes will be in place in a few days to receive the tin foil.

By Com. of Organized Labor.

OLD PEOPLE'S KIDNEYS

Many Elderly Brainerd Residents Suffer From Some Form of Kidney Trouble

When past middle age, there frequently comes a noticeable weakening of the organs of the body, and resulting danger of quick decline. It is quite necessary to give prompt help to any part that first shows signs of wear. Healthy kidneys are necessary to a hale old age. Weak kidneys often bring constant backache, lame back, stitches and twinges of pain, annoying urinary troubles, and the danger of dropsy or Bright's disease. Doan's Kidney Pills are gratefully recommended by very many aged people. Read what a Brainerd resident says:

A. B. Grewell, retired farmer, 406 S. Bluff Ave., says: "I am getting on in years and my kidneys get out of order, now and then. The kidney secretions change in quantity and color and sometimes I have to get up four or five times at night. I have dizzy and fainting spells and a dull pain through the center of my back. When I feel these symptoms coming on I take Doan's Kidney Pills and they fix me up in good shape."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Grewell had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Moisture Absorbed by Granite. A coat made of granite, while perhaps not the most comfortable article of wearing apparel—although granite in thin sheets is flexible—might be thought to be storm proof; yet granite will absorb a considerable amount of moisture. If a cubic yard of granite that had been completely dried out were immersed in pure water, it would, according to the United States Geological survey, after a short time, take up four gallons of water.

ROLL OF HONOR

Miss Agnes Dougherty of Brainerd and Miss Helen Crotty of Cloquet, graduates of St. Mary's hospital, Duluth, have received calls to report for government service.

Basil Burrell arrived today from Camp Dodge, Iowa, for a short furlough to be spent visiting his parents. He is in a machine gun section. Training has increased his height and weight.

David Nygreen has arrived safely in England and writes he had a pleasant trip and that they are being shown every courtesy by the people of England.

OUT-GUESSING YOUR OPPONENT

(Copyright 1918 by United Press)

With the American Airmen in France, July 10 (By Mail)—"How do you feel up there in the air when you're jockeying with a hun for a chance to bring him down before he gets you?" was the question put to Eddie Rickenbacker, American ace and former auto racer.

Rickenbacker reflected a moment and then said:

"You don't feel very much, because you are too busy watching the heinies machine. But you think of it as a machine and not as a man. I never think of the men in the boche planes, but regard a fight as a sport in which we both take chances, and if he is better than me and uses better judgment he will get me, but if I am the better sportsman, I'll get him first."

"Fighting in the air, in the chase work at any rate, is more a question of keen thinking and good judgment than anything else. You first try to outguess your opponent and then try to get position on him. Attacking is a question of knowing when to pique on him, and when not to."

"Of course, a good flyer has to have his nerve with him, and we all fear the mistake of not attacking when we should, more than we fear being shot down. A mistake like that, of allowing your nerve to fail you just once would weaken a man and we know it. However, we also know we cannot be foolhardy and reckless. Doug Campbell, our all-American ace, has worked out some unusual tactics regarding fighting boches which have succeeded remarkably. He is of a studious turn of mind, and figures out what the methodical German mind would expect him to do at a certain time or in a certain situation. Then Doug does just the opposite."

"For example he has picked on boches in certain positions which were thought to mean sure death. But he did it suddenly and unexpectedly, and before the German mind had conceived of the situation, Doug had to let him have it and dived out of position again. He's landed several boches that way."

"You have to make some quick decisions up in the sky sometimes and they're pretty important to you, too, but that is the most important part of the game and the most fascinating part. It has been one of these phases where American flyers have been most successful."

"Their judgment has been made in a lightning way. But most of the boys are well educated and are quick thinkers."

"After you fly a while you get the sense of feeling that is new. You sort of feel a boche around and feel the direction, too, since it is hard to see him. Of course you are always looking around, because a couple of minutes without care would enable a German to be on you unexpectedly, and it might mean flowers."

"Most people who have never flown imagine running the plane is a question of concentrated attention on the mechanics of it. That is not so. Once you get up, you can fly for a long time without touching a lever and without bothering about the motor. You don't need to stir because there is nothing to do and your only concern is not getting too far into Germany. Since there are no trees or ruts to hit, and since the air is a big space, your decision makes little difference. You can't bump into anything."

"The thing you watch most is the huge space all around you and you keep your eyes open for more planes. Once you see one, you immediately work for position until you learn whether it is a friend or a boche. Then you act accordingly and it never takes long to make up your mind what to do."

"Clouds are risky things. They look brightest and fleecy when you are away from them. When you dive into them you feel no sensation and hit nothing. Everything seems like a fog. If they are large they are dangerous, for you can lose your sense of direction among them. Sense of direction is more important than a compass, which often doesn't work when you are diving around. Clouds can also hide boches."

EXTRA SUGAR FOR EXTRA CREWS

The sugar division announces that for August county and local administrators may permit grocers to sell extra sugar to farmers where they have extra crews for harvesting or threshing on the basis of two pounds for every 90 meals served.

BRAINERD PLAYS AT ROYALTON

Brainerd plays at Royalton on Sunday, August 18, and it is hoped to have enough volunteers with cars to carry the players.

A. P. Drogseth was married this week and is on his honeymoon trip and so was unable to get together a delegation. Four cars are needed and the boys hope the Chamber of Commerce will be able to commandeer the cars for the game.

Fifty-seven signed up to carry players and not all have yet responded. If willing to assist, please telephone to Cook's, 925. Cars should be at Cook's about noon Sunday.

BUSH OUTPITCHES CICOTTE AND WINS

Boston, Aug. 16—Bush outpitched Cicotte today and Boston won the odd and last game of the Chicago series, 2 to 0. Hooper's single, Shean's infield out, and Strunk's triple scored one run in the first. Coffey's single and Mayer's double scored the other run in the second. Coffey's fielding was excellent.

Score:
Chicago.....000 000 000—0 5 0
Boston.....110 000 000—2 8 0
Batteries—Cicotte and Schalk; Bush and Mayer.

At the Best Tonight

At the Best theatre today, a new William Fox picture called "Ace High," will be shown, in which Tom Mix is the leading figure.

This star has gained an enviable reputation by the fine work he is doing and the dash and spirit that pervades all his work. He is taking up a new scene for this work, but the play shows him in the same sort of character as that which gained him his fine reputation.

Just now Tom Mix is one of the most popular men appearing on the screen, and this new production is worthy of his high and ever-growing reputation.

At the Best Sunday

Constance Talmadge comes to the Best theatre Sunday as the star of "Good Night, Paul!" her latest Select Picture, in which she is presented by Lewis J. Selznick. It was adapted for the screen by Julia Crawford Ivers from the musical comedy success of the same name by Roland Oliver and Charles Dickson. This is the laugh-provoking vehicle in which Ralph Herz recently appeared in the larger cities; the photoplay has, of course, been considerably modified for Miss Talmadge's use, but the screen version is even funnier than the stage presentation and may well be called a bonanza of laughter, with a hearty giggle in every foot of film.

At the Best Monday

When William Fox presents his epoch-making film version of "Cleopatra," with Theda Bara as the Siren of the Nile at the Best on Monday and Tuesday, local amusement seekers will see the most sensational and magnificent photo-dramatic spectacle ever produced. The passions and pageants of Egypt's vampire queen as portrayed by the screen's foremost interpreter of siren roles aroused the entire theatre and picture-going public of New York, where "Cleopatra" enjoyed a phenomenally successful run on Broadway at the Lyric theatre. No film drama ever offered the American public has achieved greater popularity than this stupendous production.

Catarrhal Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

F. J. CHENEY & CO., Toledo, O.

BRAINERD'S ODDEST STORIES OF TODAY

Mr. and Mrs. Leo Rifenrath have their home in the first building south of the telephone headquarters, but people will persist in running up the Reilly block stairs and looking for the telephone station. Innumerable times Mrs. Rifenrath has had unlooked for visitors in the hall and parlor who wanted long distance. She feels like putting up a sign, "This is not the Telephone Office. The telephone company might take a hint and put a marker on their own door."

This in the Backus Bugle rings out with a clarion note: "The party who borrowed my dresser 3 years ago will kindly return same at once and oblige. F. W. Zafke."

The Royalton Banner mentions a bombardment recently carried out in their town. "A disgraceful incident occurred one evening last week when several young fellows of the village from the top of a store building, bombarded with rotten eggs some young men from the country who had incurred their displeasure. Such actions should be summarily and severely punished."

Down at Royalton Ed Stodolka has made a flying machine all by himself and makes flights. The Royalton Banner gave its distinguished townsman a five line local in his last flight when the young man came down and kerplunk in a corn field and damaged his propeller and landing gear. Flying machines, according to the news value they pull, must be as common at Royalton as Fords in Brainerd.

WHERE TO WORSHIP

Norwegian-Danish Lutheran
No services as I am to be in Deerwood. Rev. A. Sorenson.

† † †

Reading room open daily from three to five except Sunday and holidays. All are welcome at these services.

† † †

Methodist Church
Morning worship at 10:30 A. M., at which time Rev. F. W. Hill, the pastor, will preach, taking as the sermon theme, "The Barrel of Meal and the Cruse of Oil that Failed Not." Bible school at 12 o'clock. Epworth League at 7:15 o'clock. In the evening at 8 o'clock, the

ALBERT LEA'S EXPERIENCE GIVEN

Cash and Carry Plan well Received in Town About Size of Brainerd in Farming Community

ONE BIG MERCHANT BALKED

Retail Grocers There had been Paying \$28,000 Per Year for Delivering Groceries

(From Official Food News of Federal Food Administration for Minnesota)

Issue No. 2 August 15, of the "Official Food News," published by the Federal Food Administration for Minnesota, gives the experience of Albert Lea, a town of 6,192 in the 1910 census and situated in rich farming country whose population has been largely increased since then, and the merchants appear well pleased over the recent institution of the "cash and carry" plan. The article states:

"Speaking of the effect of the 'cash and carry' plan after a week's operation in Albert Lea, County Food Administrator Demmon says:

"I am very much pleased to say that in spite of very active opposition to the delivery change here in Albert Lea, the most of the merchants have been quite thoroughly won over to the new proposition and as a result of this change, they have found the past week that their cash sales had increased materially because people when calling at the store quite naturally are more apt to pay cash than when they telephone for their goods."

"Then too with the exception of one store and this one store was very much in opposition to the change, there has been no noticeable reduction in the volume of business done by any of the retail grocers. Their average sales, some a few dollars less and some a few dollars more, have been just about normal with the exception as above stated of one store who claimed his sales were \$222 less than they were the previous week."

"I believe that they are going to become very enthusiastic over the proposition and another thing in totaling up the delivery expense as it has been in Albert Lea, I find that our retail grocers here have been paying \$28,000 per year for delivering groceries. Each store has been paying from \$1,800 to \$2,500 per year and it really is a ridiculous amount of money to spend for delivering when it is an item that to a great extent is unnecessary and particularly during war time."

"This change as working out, is going to relieve some six or eight men for other work where they are badly needed."

Founded on a Religion.

Twelve hundred and eighty-five years ago the founder of the Mohammedan religion died in Medina, Arabia, and the career of Mohammed is now recognized as one of the nine or ten great careers in history. A son of the desert, born with a keen poetic and zealous nature, his early life was passed in dreams, visions and meditations. Gradually there dawned upon him the conception of the unity of God. In his fortieth year his work of proselytizing began. Persecuted by the older religions, he barely escaped with his life, and fled from Mecca to the city of Medina. Rapidly the new faith gained adherents; the forces of Mecca were defeated, and by the time of his death the whole of Arabia had been subdued and an army was setting forth to assault the Roman empire of the East. Exactly 100 years after he died his standards had been planted by his disciples across the Pyrenees and on the plains of India.

pastor will preach on the theme "Keeping Close to the Savior." You are cordially invited to worship with us.

† † †

First Baptist Church

Morning service at 11 o'clock. Evening service at 8 o'clock. Rev. R. E. Cody has returned from his vacation and will occupy the pulpit morning and evening. All regular services will be resumed and everyone of the congregation is invited to be present. Sunday school at 9:45 A. M. B. Y. P. U. at 7 P. M. Prayer meeting on Thursday at 8 P. M. A welcome awaits you at all services of this church. R. E. Cody, pastor.

† † †

Swedish Bethany Church

Sunday school meets at 10 a. m. Morning service at 11 o'clock. No evening service.

In the afternoon at 3 o'clock the choir and friends will meet at the church, where cars will meet and take them to Pillager, where Rev. Clemens will speak at 7:30 and the choir will sing. Mr. Anderson, proprietor of a store there, will meet the visitors and entertain them until the evening service. It will be appreciated if any car owner not having a load will stop at the church and take somebody with them.

"Breezy music" to help you keep cool

"Keep your mind off the heat," say the doctors. "That's the way to keep cool." With a Victrola on your porch and some happy-hearted, light-footed music playing, it is quite possible to forget all about the heat.

Victrola

If you say the word, we will send a Victrola to your house today on such easy terms that you will never miss the money.

New Location, Anna Block
Corner 7th and Front Brainerd, Minn.

Do Something Better Than the Other Fellow--- and ADVERTISE

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.

More Skilled Labor Is Needed.

Washington, Aug. 17.—Shortage of skilled labor in war industries is being considerably relieved by restrictions of nonwar production, the Department of Labor has just announced. Curtailment of automobile production alone has released many mechanics and other workers. There is still a serious shortage in many war industrial centers, however, the department says, which can be relieved only by further transfer of labor from nonwar industries.

AEROPLANE GUN A UNIQUE WEAPON

The battles of the air on the western battle front which are to be fought by Yankee flyers in the next twelve months will play a big part in the ultimate defeat of

German forces. All persons interested in this branch of the service cannot afford to miss the war show at the coming Minnesota State Fair, September 2 to 7.

TEUTON RULERS MEET

Emperor Charles Visits Kaiser At Army Headquarters.

Monarchs Are in Perfect Accord on all Military and Political Problems.

Amsterdam, Aug. 17.—An official statement from Berlin declares that the complete agreement existing between Germany and Austria-Hungary has been again demonstrated at the meeting of the emperors at German main headquarters.

The statement, which is dated at German headquarters, Aug. 15, reads: "The meeting of the august sovereigns once again has manifested the close understanding and complete agreement on political and military tasks and an identical and most loyal interpretation of the alliance. The intercourse of the monarchs was characterized by a cordially commensurate with their personal relations as well as the interest of the people."

"Leading statesmen and military leaders have conferred with complete and fruitful results. The Kaiser gave audience to Baron Burian, Field Marshal Arz and other Austrian ministers, while Emperor Charles received Field Marshal von Hindenburg."

SIX INCH SHELL EXPLODES

Two Men Are Killed and One Injured in Munitions Plant.

Washington, Aug. 17.—Two men were killed and one seriously injured near St. Julien Creek magazine, near Norfolk, Va., by an explosion as they were loading a six-inch shell, the navy department announced. This is the first accident that has occurred there during the past seven years. It was announced.

43 CASUALTIES ON U. S. LIST

Eighteen Are Killed and Twenty-Five Are Severely Wounded.

Washington, Aug. 17.—Forty-three casualties were announced in the last list, including 18 killed in action and 25 severely wounded.

Northwest names appear as follows: Private John B. Elde, Daglum, N. D.; Cecil L. Congdon, Jud, N. D., severely wounded.

LEAGUE OF AUSTRIAN STATES

Plan Provides Autonomy in Dealing With Home Affairs.

London, Aug. 17.—A plan has been adopted for the formation of a League of Austro-Hungarian states to be autonomous in dealing with home affairs, according to a Vienna dispatch quoting the Czech radical organ in the Austrian capital.

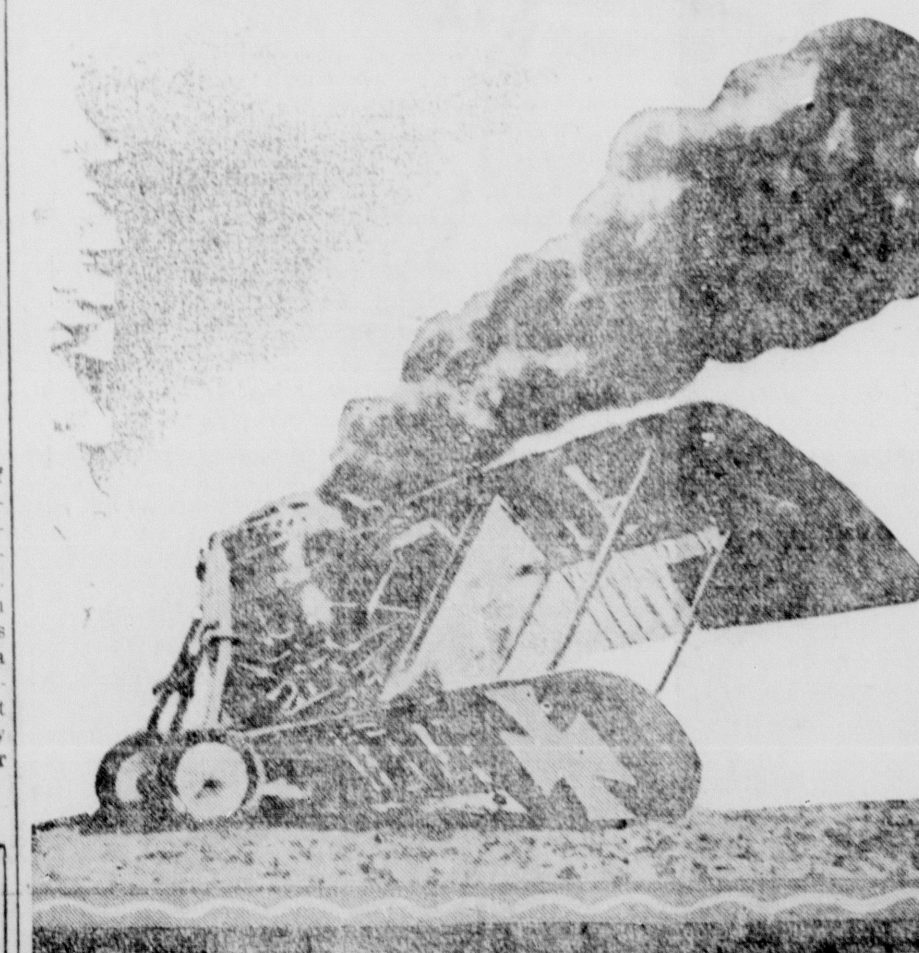

BRAZILIAN SHIP TORPEDOED

New York, Aug. 17.—The Brazilian motorship Madrugada, 1613 tons gross, has been sunk by a German submarine off the American coast. Word of the loss of the ship was received here by insurance circles. The crew was picked up by another vessel and will be landed at an Atlantic port.

Trouble Brews Over Oil Decree

Washington, Aug. 17.—The United States and Britain have joined in diplomatic representations to the Mexican government against the oil land decrees of President Carranza, which, it is contended, amount practically to confiscation. Meanwhile, the American and English oil companies have united in an agreement to refuse to meet the terms decreed, which, they contend, would take the properties from them, and have agreed to depend upon their governments for protection of their interests.

AIRSHIP DOWNED BY "YANK" TO BE SHOWN

This aeroplane ventured too far over the American lines on the Western battle front. A "Yank" got the drop on it, and the plane

fell a battered mass of twisted steel. What is left of this plane will be shown in the Minnesota State Fair war show, Sept. 2 to 7.

THE ONLY WAY
We can increase the world's supply of food is by the use of more labor-saving machinery.

We have land enough but *lack of labor is the limiting factor*; so more farm machinery of merit must be put at work to take the place of the laborers we simply cannot get for farm work.

There is only one big *machine power recruiting station* in this community where these *steel workmen* for use on the farms can be found.

Working models of all the latest machinery suited for work on the farm will be exhibited by leading dealers and manufacturers from all parts of the country—the *most complete display of labor-saving farm machinery ever shown here*.

The only place where new types and models of farm machinery can be compared by you for purchase is at the Minnesota State Fair, September 2 to 7.
